Quotas is a quality research company from Hamburg, Germany. For many years, our team has been carrying out domestic and international measurements of postal services on behalf of various postal operators e.g. Royal Mail, Post Danmark, Deutsche Post, La Poste France and Posta Slovenije.

Supported by worldwide 2500 survey participants the results of our measurements are used to improve the quality of service for the benefit of all postal customers.

For a new project on behalf of the Universal Postal Union – UPU - we are looking for reliable panellists, living in **AL-MUHARRAQ**.

Your survey task:
